

ICE Portal makes the Inc. 5000 list as one of the Fastest-Growing Companies in 2017

We at ICE Portal are proud and honored to have been selected by Inc. 5000 as one of its fastest-growing companies of 2017. This recognition is a testament to the hard work of all of our employees and our continued innovation in travel technology.

Our powerful new content management and distribution platform for travel suppliers is a prime example of the value clients are seeing from using our service. This value has precipitated the rapid growth that is expected to continue well into the future. "It's an honor to make the Inc. 5000 and all of us are extremely grateful that hotel groups recognize the value of our service," noted ICE Portal President, Henry Woodman.

First introduced in 1982, Inc. 5000 evaluates a company's three-year growth history to determine its ranking. On average, companies that made the list this year experienced six-fold expansion since 2013, while the broader economy grew only 6.7 percent. They include companies that they feel wield powers like strategy, service and innovation. Previous honorees making the list include many notable companies like Microsoft, Oracle, Zappos, Under Armour, Timberland, and GrubHub. We are thrilled to be in such prestigious company.

Since we started producing videos and 360-degree virtual tours in 1998 as World Travelvision we have made massive strides to become the leader in management and distribution of visuals for hotels and resorts. Our visual content management system serves nearly 50,000 hotels and resorts worldwide and is connected to thousands of travel distribution channels like Expedia, Booking.com, Sabre, Amadeus, Travelport, HRS, Alibaba's Fliggy, DHISCO, DerbySoft and Ctrip. We appreciate the recognition for the quality of our service, the value we deliver, the stellar customer support and great partners and clients.
